# Muhammad Zahid Iqbal

**Mobile Application Developer**

Lahore, Pakistan | +92 300 8827212 | mzahidiqbal6995@gmail.com | linkedin.com/in/zahid-iqbal699 | github.com/zahid-iqbal699 | zahid-iqbal699.github.io

## PROFESSIONAL SUMMARY

Mobile Application Developer with 6+ years of experience designing and shipping 18+ mobile and web products across food delivery, GPS tracking, e-commerce, education, legal-tech, and school management. Skilled in native Android (Kotlin, Java) and cross-platform (Flutter, Dart) development, REST API and Firebase integration, and owning releases end-to-end — from feature design through Google Play Store deployment. Experienced mentoring junior developers and leading code reviews to maintain quality across a team.

## SKILLS

**Languages:** Java, Kotlin, Dart, PHP

**Frameworks:** Flutter, Android SDK

**Databases:** Firebase (Firestore, Realtime Database, Auth, Cloud Storage), MySQL, SQLite, Room Database

**Tools & Practices:** Git, GitHub, Bitbucket, REST API Integration, Code Review, Unit Testing, Agile Collaboration, Google Play Console, CI/CD Release Management

## SELECTED PROJECTS

Full portfolio with details for 18+ shipped apps: zahid-iqbal699.github.io

- **Grubhouse** — Food delivery app for students in London covering order placement through doorstep tracking. *(iOS, Android · Flutter)*
- **EcuaGPS** — Real-time vehicle tracking and safety app with speed, geofence, and low-battery alerts plus recovery tools. *(iOS, Android)*
- **Darloo** — All-in-one e-commerce app spanning clothing, shoes, and kids' essentials with fast global shipping. *(iOS, Android)*
- **Consultus.io** — Study-abroad consultation web platform with dedicated student and agent panels for application tracking. *(Web Platform)*
- **Ghazai School Management App** — Full school operations platform covering admissions, attendance, exams, fees, and messaging across four user roles. *(iOS, Android · Flutter, Laravel, Firebase)*
- **Pakistan Legal Reference Suite** — Suite of five reference apps covering Pakistani civil and criminal law codes with full-text search. *(Android)*

## WORK EXPERIENCE

**Mobile Application Developer** — Animmza, Okara, Pakistan *Aug 2024 – Present*

- Design and build native and Flutter mobile applications end-to-end, working across the Android framework and OOP-driven architecture.
- Collaborate cross-functionally to design, ship, and maintain new features across client products.
- Own release quality — testing, bug tracking, and coordination through to Google Play Store deployment.

**Mobile Application Developer** — Mart of Tech, Lahore, Pakistan *Mar 2023 – Jul 2024*

- Designed and built native (Kotlin/Java) and Flutter applications end-to-end, integrating external data sources and third-party APIs.
- Assigned and coordinated tasks across junior developers, ensuring efficient workflow and on-time delivery.
- Conducted code reviews to maintain code quality and enforce best practices across the team.
- Mentored junior developers, providing technical guidance and fostering a collaborative development environment.
- Managed the full release process — beta testing, bug tracking, and deployment to the Google Play Store.

**Android Developer** — CoFounders Pakistan, Gujranwala, Pakistan *Jan 2022 – Apr 2023*

- Designed and developed Android applications using Kotlin/Java, integrating external data sources and APIs under senior supervision.
- Supported senior developers on project management tasks and participated in code reviews to strengthen best practices.
- Collaborated with cross-functional teams to help design and implement new features.
- Assisted in the release process, including beta testing, bug tracking, and Google Play Store deployment.
- Recognized as Employee of the Month (2022) for consistent delivery and team contribution.

**Android Developer** — Facile Solutions, Sahiwal, Pakistan *Jan 2020 – Dec 2021*

- Designed and built Android applications using Java, implementing features in collaboration with cross-functional teams.
- Integrated external data sources and third-party APIs under the guidance of senior developers.
- Built user interfaces from design specifications and conducted unit testing to ensure code robustness.
- Participated in code reviews and contributed to project documentation.

## EDUCATION

**BS (Hons) in Computer Science** — Bahauddin Zakariya University, Multan, Pakistan *Aug 2017 – Aug 2021*

**Intermediate in Computer Science** — Govt. Post Graduate College, Sahiwal, Pakistan

## AWARDS & LANGUAGES

Employee of the Month — CoFounders Pakistan *2022*

Languages: Urdu (Native), English (Professional Working Proficiency)
